

# Introducing Active Directory for Blyott

## Easily and quickly create your own users

Using the Blyott platform, you can easily create your own users if you're an admin. But imagine the work that will go into adding 1000 users manually.

If you already use an identity provider, e.g., Active Directory, Blyott can be linked to your existing setup. This will save you a lot of time adding users as you don't have to create them individually and manually on the Blyott platform.

Note this is an optional service. We charge a one-off setup fee and an annual license fee. Get in touch to discuss how you can use Active Directory.

## About Blyott

Blyott is at the forefront of transforming industries with innovative localization and monitoring solutions. Our platform integrates advanced data analytics and AI, supporting various sectors to navigate operational challenges, enhance efficiency, foster staff well-being, and achieve sustainability goals.

### EASY TO SET UP

Works in a matter of minutes.

### SCALABLE

Scale to millions of assets.

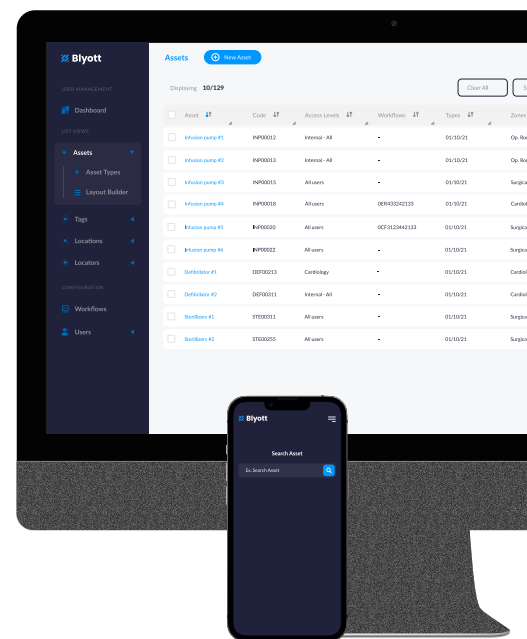

### PAY-AS-YOU-GROW

Custom plans are available.

### OPEN STANDARD

Integrate using REST APIs and webhooks.
