

Start monitoring your live inventory with the Blyott **Mobile Demo Kit**

Automate your inventory control effectively. Our solution works out of the box.

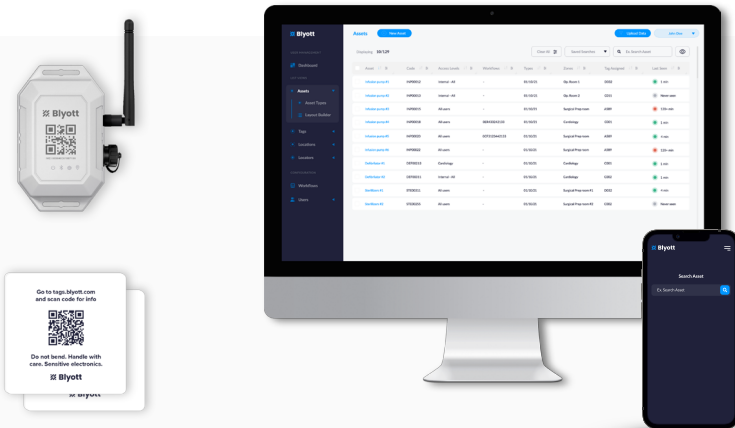

Keep a close eye on your assets and live inventory

Blyott offers an easy-to-try kit for managing consignment inventory. It provides accurate tracking to streamline stock management and avoid revenue loss.

- ✓ **Real-time inventory monitoring**
Live track consumables to minimize stockouts and financial losses from unbilled items.
- ✓ **Sensitive asset tracking**
Track location and condition of critical items like chemo doses to ensure accessibility.
- ✓ **Quality control monitoring**
Monitor sterile items, support safety standards and prevent compromised inventory.

Try the Blyott consignment solution on your own.
