

TEMPERATURE MONITORING APP

# Precise Temperature and Cold Chain Management

TEMPERATURE MONITORING APP

# Precise Temperature and Cold Chain Management

## When temperature monitoring is essential

Designed to meet the stringent requirements of healthcare, retail, and various industries where temperature monitoring is essential, Blyott introduces an app for precise temperature and cold chain monitoring.

**Maintaining the perfect temperature and humidity levels is critical to preserving product quality, safety, and regulatory compliance.**

Monitoring temperature with Blyott, you get precise real-time data to ensure your products are always stored in optimal conditions.

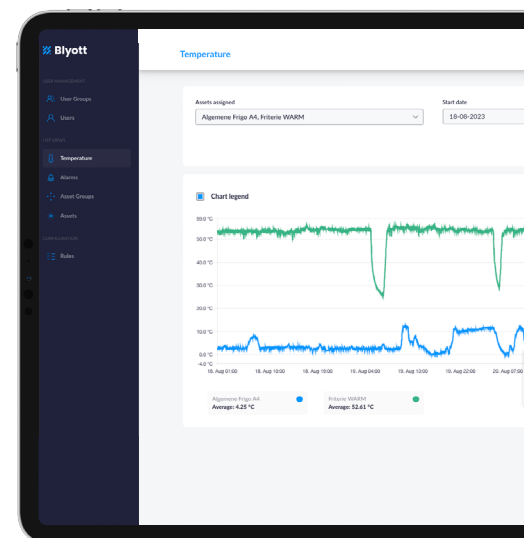

For instance, get instant alerts if temperature or humidity thresholds are breached, so you can take immediate action and protect your assets, never worrying about quality and safety again.

In addition to alerts, you gain access to comprehensive reports and historical data, allowing you to make informed decisions, optimize operations, and identify trends for continuous improvement.

Receive these reports daily, weekly and monthly via email for informational purposes or use them to provide indisputable proof that temperature thresholds have been consistently maintained, ensuring you stay compliant.

### Monitor temperature with Blyott

- ✓ Supreme accuracy and reliability
- ✓ Instant alerts for peace of mind
- ✓ Compliant and transparent
- ✓ Detailed insights, including historical data

## Versatility in temperature and cold chain monitoring

### 1 Blyott Sensors

Fix on asset. Location, movement and temperature sensors, long battery life.

### 2 Mobile Locators with 4G

Receive Blyott sensor information. Wi-Fi AP's with built-in Bluetooth<sup>®</sup>, fixed & mobile locators.

### 3 Remote Insights Platform

Serverless & scalable architecture. Big "Location" Data analytics.

### 4 Customer Apps

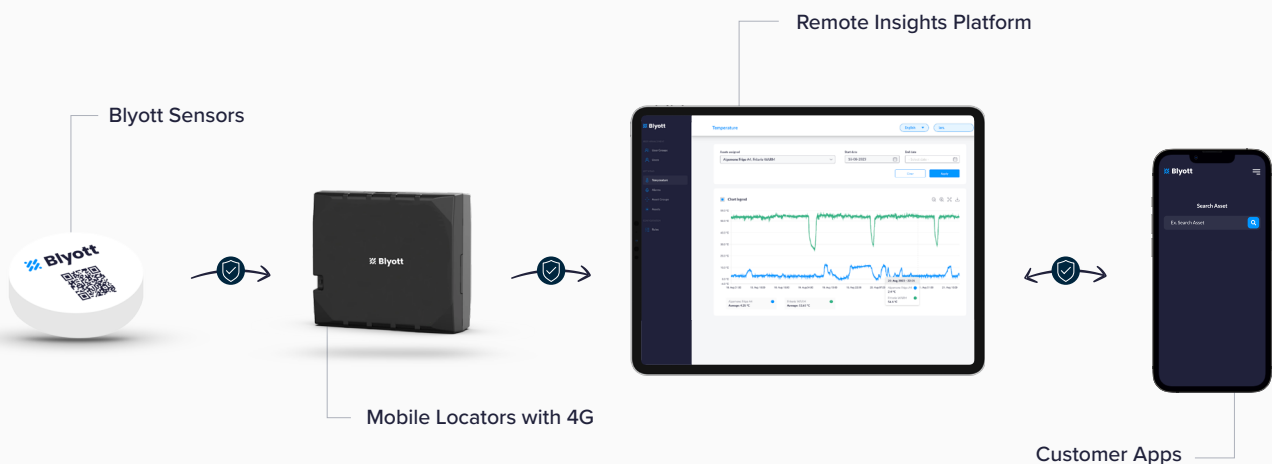

Blyott Web & Mobile App. Support for 3rd party apps using Rest API's.

There's no one-size-fits-all all in temperature monitoring. Therefore, we offer a range of tracking options for various use cases.

For instance, opt for the Blyott Standard Tag for everyday temperature monitoring needs, and use the Ruggedised Tag when durability matters. The Ruggedised Tags are designed to withstand the harshest environments, ensuring accurate data.

Lastly, for cold chain monitoring, Blyott also offers a high-precision sensor (BT-TH) that monitors humidity along with temperature, so you can achieve the highest accuracy and reliability standards.

<sup>®</sup>The Blyott solution is compatible with Wi-Fi APs enabled with Bluetooth<sup>®</sup> technology from various vendors. Bluetooth<sup>®</sup> is a registered trademark of Bluetooth SIG, Inc.

#### Monitor moving assets

Monitor temperature of assets and medicines onboard moving vehicles, like vans and trucks.

#### Monitor on-site assets

Monitor temperature of food in fridges to ensure that contents stay fresh and doesn't exceed thresholds.

# Real-time temperature monitoring on the road

Blyott's temperature monitoring capabilities goes beyond fixed location monitoring. Our platform allows you to monitor temperatures in moving vehicles, in real-time, thanks to the use of mobile locators.

This feature opens up a world of possibilities and use cases, making Blyott the ultimate choice for dynamic temperature control scenarios.

## 1 Extremely fast to implement

Use mobile locators with remote management (OTA) and built-in GSM and GPS to scan for assets and tags. Be live within minutes.

## 2 Do more with your temperature data

Gain more details into temperature monitoring with the Insights Module: optimize asset performance, ensure environmental control.

## 3 Integrate with other apps and services

Using REST APIs and webhooks, Blyott allows devices to communicate regardless of operating system, technology or ecosystem.

## 4 Attractive pricing model

Enjoy Blyott's "pay-as-you-grow" business model with very few upfront costs. It's time to put data to work at an affordable price.

## About Blyott

Blyott is at the forefront of transforming industries with innovative localization and monitoring solutions. Our platform integrates advanced data analytics and AI, supporting various sectors to navigate operational challenges, enhance efficiency, foster staff well-being, and achieve sustainability goals.

### EASY TO SET UP

Works in a matter of minutes.

### SCALABLE

Scale to millions of assets.

### PAY-AS-YOU-GROW

Custom plans are available.

### OPEN STANDARD

Integrate using REST APIs and webhooks.
